together as one.

I'll do this method you shared

I'll call in to Affinity Designers support, and find out why this is happening

Let me know if the method above works for you...

Ya, in export persona if you include the whole template, instead of just exporting the pages, that's when all the pages don't separate

Thanks for the help. Appreciate it!!

You bet, sorry about the dwlay

Delay*

Btw, great job on Walnut Creek!

Thanks. First crack at it. Pretty enjoyable to do
